Tina

Please find the updated version of Project 6 and its associated Excel file for the entire planning period. This project best reflects a research project per se so it does not suffer the same scheduling challenges that arise with the assessment product lines, although the new budget constraints and loss of personnel obviously have their impacts. Thus, a few outstanding issues are as follows:

## Ex. 5 Deliberative Process (DP)

Special thanks to Mike and Deb as the co-PL and a stellar set of TL on this timely scientific topic. The project is very productive! We have featured webinars (e.g., the DAG approach was presented to both the EC and to SOT RASS), won some scientific awards, and provided several APR in this project in just the first two years. I am sure it will continue to be a strong contributor to the HHRA portfolio.

Annie
